

PRESS INFORMATION

9th March 2009

SGW Security Consulting at IFSEC 09

Specialist fire, security and CCTV consultancy, SGW Security Consulting, will be exhibiting at IFSEC 09, stand number D108, Hall 4.

Showcasing their industry acknowledged skills, SGW Security Consulting will be on-hand to discuss their vast experience within construction, hospitality, financial, public space and transportation security specifying. The company will be demonstrating how it can supply professional, fully independent advice on threat assessment, strategic solutions and the specification of Electronic and Physical Security.

At home working with single clients or multiple agencies such as architects, contractors, and construction companies, and without allegiance to manufacturers or installers, SGW Security Consulting can provide customers with unbiased support across a broad spectrum of security system solutions. This includes undertaking threat assessment reviews, preparing holistic security strategies through to specifying access control, alarm, fire, ANPR and CCTV and physical controls together with project management services.
